Formato de Entrada (ESRI shape)

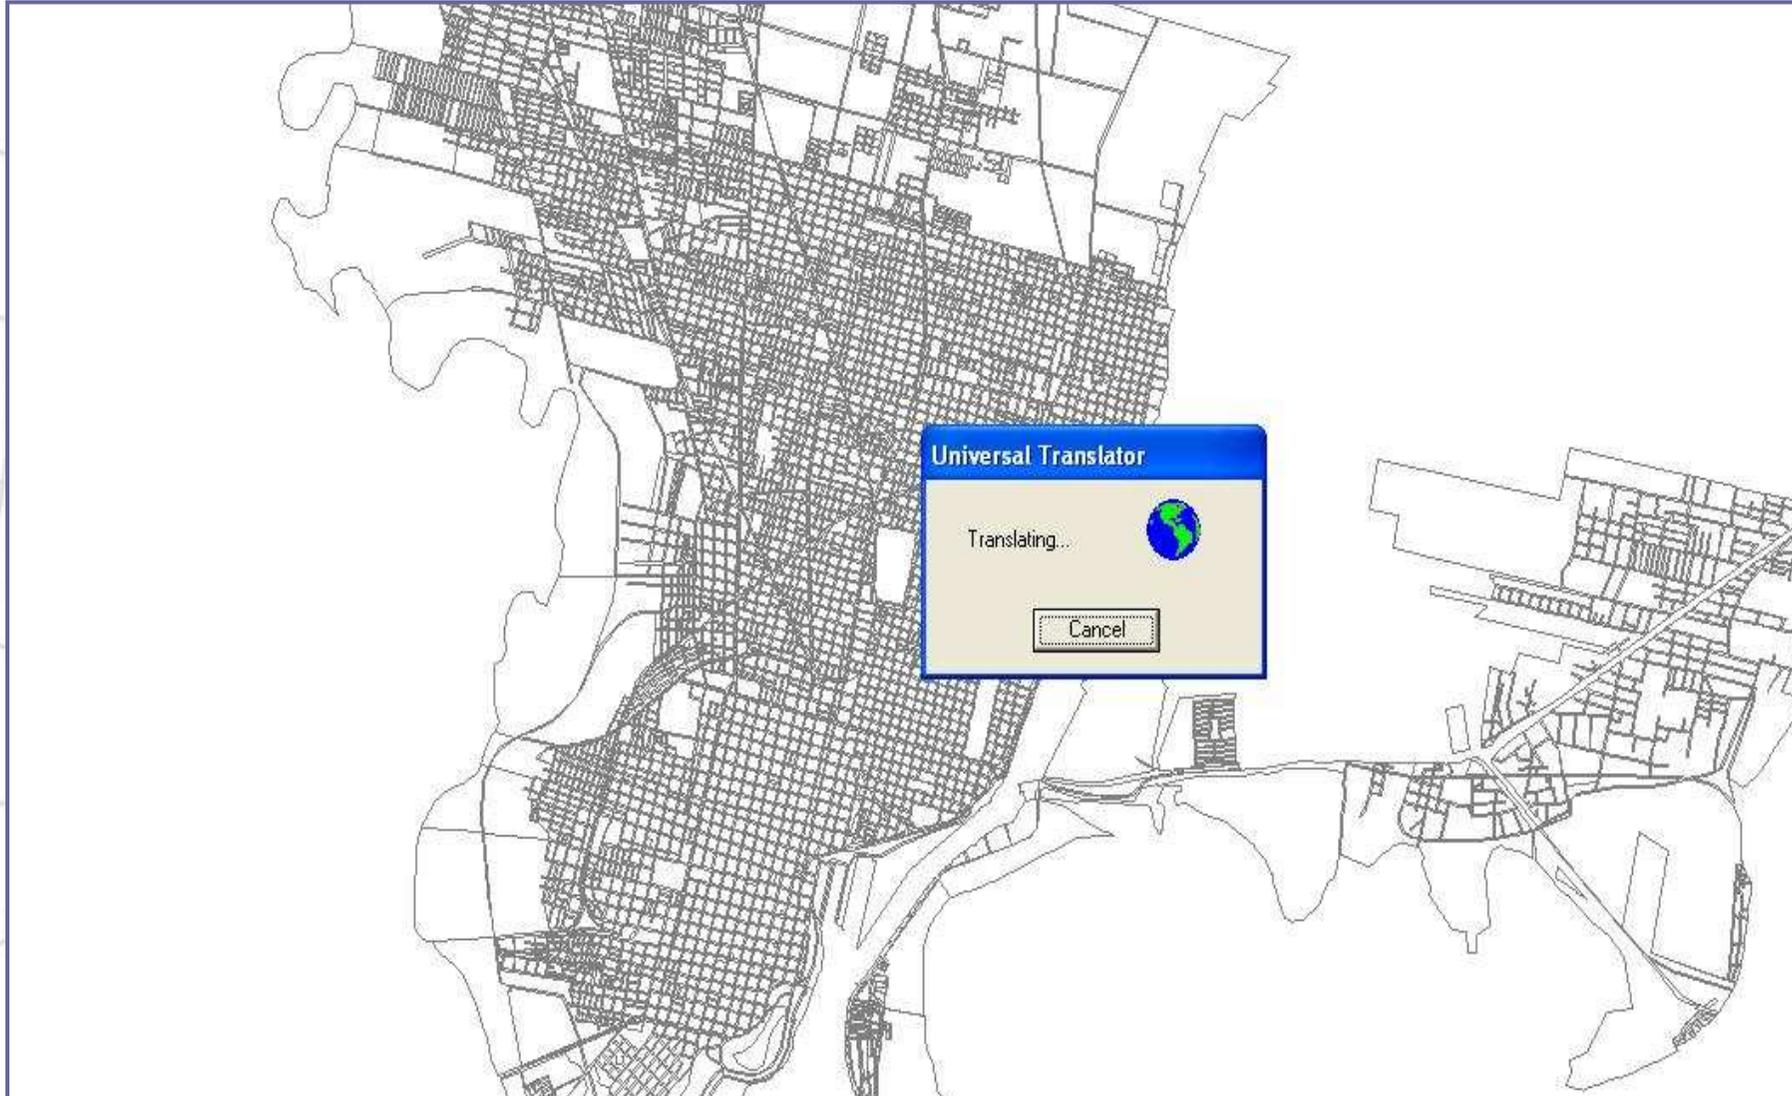

The screenshot shows the MapInfo Professional interface with a map of a city grid. A dialog box titled "Universal Translator" is open, showing the conversion settings. The "Source" section has "Format" set to "ESRI Shape" and "File(s)" set to "\\PEDIDOS\EscSantaFe_COMPLETA_point.shp". The "Destination" section has "Format" set to "MapInfo TAB" and "Directory" set to "C:\PEDIDOS". The "Log" section has "Log to File" checked with the path "c:\docume~1\maguire\config~1\temp\mu..." and "Append to Log" checked. Buttons for "Help", "OK", and "Cancel" are at the bottom.
